Net bill is 84 of 1894-95
& does not seem to have any NO to deal with this. If this can be agreed to by a contribution of Rs an acre there is no difficulty in levying it as a new demand. The Dy Com must hand over the amounts collected

Sir

In reply to Government Proceedings
No. 24287-8/R.S.-1576-93 dated 27th June, 1925 calling
for a report upon the collections
made from the ryots who received
benefit from the Irrigation project
and banned at the rate upto 4/- per
acre, I have the honour to inform you
that the Amildar was upto his in-
ability to collect any money at all
from the ryots in question, although
they agreed before to contribute
Rs 4/- per acre.

2. The ryots when asked maintain
that as they did not receive Water
Sale Bank Note according to manual
or custom, they should not pay the
amount. As regards the point I
have the honour to state that all the

water rate from the Merchants
field it may into the Resident and
the Yagati ancient and channel
and that Mr. Jafar Khan, who
all the Merchants water rate
ever have been entitled. Besides
the fact of the Merchants failing
to discharge for the year, few years
may have something to say to their
present grievance as in consequence
the water of the ancient muckhelee
I therefore, request you will inform
me what steps are now to be taken
for the recovery of the estimated
demand of Rs. [illegible] promised
to be contributed by the upts.
